

FACTS II

What's New?

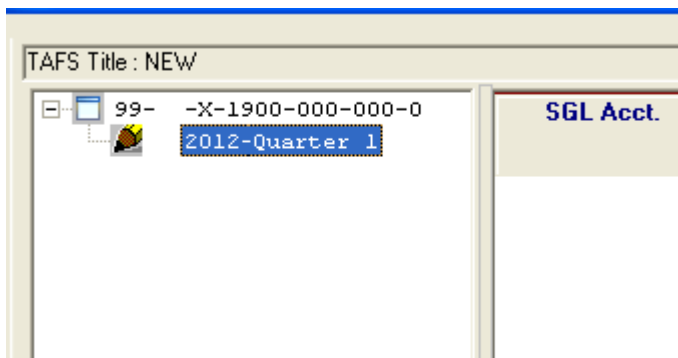

1st Quarter 2012 Reporting Window

Frequency of FACTS II Reporting

The frequency of FACTS II reporting will increase from 4 reporting windows to 7 reporting windows. This means FACTS II will be open additionally in August, September and December beginning fiscal year 2012. Data will still need to be certified for the extra reporting windows.

Reporting in January

In FACTS II you will use **2012 – Quarter 1** to report your data (as shown below).

Extra Reporting Windows in FACTS II

As a reminder, extra reporting windows **will not** be saved in FACTS II. This means when you report in FACTS II in the months of August, September and December you will have to print any reports before the next window opens.

Direct-Reimbursable Attribute for Unobligated USSGLs

In FY 2012, FACTS II will require agencies to provide a direct-reimbursable distinction when reporting end-of-year unobligated balances accounts for each Treasury Appropriation Symbol (TAS). The SGL accounts that go into end-of-year unobligated balances are shown below:

SGL Acct	Debit/Credit
4060	C
4070	C
4210	C
4310	C
4420	C or D
4430	C or D
4450	C or D
4510	C or D
4590	C or D
4610	C or D
4620	C or D
4630	C or D
4690	C or D
4700	C or D
4720	C or D

Background

OMB and FMS believe that agencies in their financial systems keep separate track of unobligated balances from 1) direct appropriations versus 2) unobligated balances from offsetting collections \ reimbursable agreements. While agencies need to maintain this distinction to carry out their programs, they have not reported this information to FACTS II in the past. Effective FY 2012, OMB is requiring agencies to report this information to respond to demands from both Congress and the Administration to provide better information on unobligated balances at a TAS level in every agency. Congress uses this information to make future funding decisions, and to formulating proposals for across-the-board (ATB) rescissions. In addition, the Administration and OMB uses this same information in evaluating the proposals put forth by Congress

As a general rule, unobligated balances from direct appropriations are subject to ATB rescissions, while other (e.g. reimbursable) unobligated balances are not. In analyzing FY 2011 third quarter FACTS II \ SF 133 reports, OMB found that nearly 60 percent of all unobligated balances are in TASs with both appropriated and reimbursable funding. This is very significant because neither Congress nor the Administration can readily use this

information to determine what portions of unobligated balances from these TASs are available for ATB rescissions. The table below illustrates the problem.

<u>Category</u>	<u>Unobligated Balance (FY 2011, 3rd Quarter)</u>	<u>Percent</u>
TASs with strictly appropriated funds	~ \$193 Billion	33%
TASs with strictly reimbursable funds	~ \$50 Billion	8%
TASs with both kinds of funds	~ \$347 Billion	59%

Approach:

Recognizing it will take time for agencies to compile the information for their FACTS II submissions, OMB working with FMS developed a phased approach for agencies to start reporting this information in FACTS II in FY 2012. The table below shows what values you will need to provide to FACTS II starting in FY 2012.

<u>Time Period</u>	<u>Bulk File Values Allowed</u>	<u>Data Entry Screen Dropdown Values</u>	<u>Data Entry Screen Default Value</u>
Prior to Quarter 3	X, D, R	X, D, R	X
Quarter 3 and beyond	D, R	D, R	X

This is what each of the domain values means:

X for default, meaning you don't know whether to use D or R

D for Direct appropriation; and,

R for reimbursable;

The X (or default) value is available for half the year to provide time for agencies with TASs that have split balances to make adjustments needed to properly break out these balances.

In addition, agencies submitting bulk files can use a blank. However, FACTS II will convert the blank to an X prior to 3rd quarter.

New FACTS II Edit: Edit 21 Transfer Edit

The Transfer edit will compare the following USSGLs amounts reported in the GWA Net application to USSGLs amounts reported in FACTS II. The USSGLs included in the edit are as follows:

SGL

Account

<u>Num</u>	<u>SGL Account Description</u>
4137	Transfers of Contract Authority
4166	Allocations of Realized Authority - To Be Transferred from Invested Balances
4167	Allocations of Realized Authority - Transferred from Invested Balances
	Allocations of Realized Authority Reclassified - Authority To Be Transferred From Invested
4168	Balances - Temporary Reduction
4170	Transfers - Current-Year Authority
4171	Non-Allocation Transfers of Invested Balances - Receivable
4172	Non-Allocation Transfers of Invested Balances - Payable
4173	Non-Allocation Transfers of Invested Balances - Transferred
4175	Allocation Transfers of Current-Year Authority for Non-Invested Accounts
4176	Allocation Transfer of Prior-Year Balances
4190	Transfers - Prior-Year Balances
4192	Balance Transfers - Unexpired to Expired
4193	Balance Transfers - Unobligated Balances - Legislative Change of Purpose
4199	Transfer of Expired Expenditure Transfers - Receivable
4230	Unfilled Customer Orders Without Advance - Transferred
4232	Appropriation Trust Fund Expenditure Transfers - Receivable - Transferred
4233	Reimbursements and Other Income Earned - Receivable - Transferred
4234	Other Federal Receivables - Transferred
4831	Undelivered Orders - Obligations Transferred, Unpaid
4832	Undelivered Orders - Obligations Transferred, Prepaid/Advanced
4931	Delivered Orders - Obligations Transferred, Unpaid

Basically, Edit 21 will work as follows:

	<u>Reported in FACTS II</u>	<u>Reported in GWA Net</u>	<u>Pass or Fail</u>
Scenario 1	4170 Debit \$25.00	4175 Debit \$25.00	FAIL
Scenario 2	4170 Debit \$25.00	4170 Debit \$25.00	PASS
Scenario 3	4190 Debit \$50.00	Nothing	FAIL
Scenario 4	Nothing	4190 Debit 50.00	FAIL

In conclusion, you must report the same USSGL and the same amount in both FACTS II and the GWA Net application. Edit 21 will be a soft edit.

Non Federal Exception

Beginning 1st Quarter 2011, the transaction partner domain value "E" Non Federal Exception will be limited to specific TAFS. Refer to the list below for TAFS that are allowed to use "E" Non Federal exception in their FACTS II Reporting. If your TAFS is not in the list below you will be limited to the domain value "X" Non Federal and/or "F" Federal. For USSGLS 4221, 4251 and 4230 if you are not on the list you will only have the option of "F" Federal.

Please Note: This restriction only applies to USSGL accounts 4221, 4251, 4230, 4233 and 4212.

Department of Agriculture

12	4609	Working Capital Fund
12	5410	Inspector General, Assets Forfeiture
