What is PIR?

- The Payment Information Repository (PIR) is a multi-year initiative that will create a centralized information repository for federal payment related data.
- The PIR is a key component of Financial Management Service (FMS)' efforts to simplify and streamline U.S. Treasury's payment programs.

PIR will...

NTDOs utilize PIR to view payment voucher data.

CASHLINK II Decommissioning

- Stand Up PIR
- Inherit CLII Functionality for Payments

GWA Reporting

- Enable NTDOs to report detailed payment data

NTDOs utilize PIR to report detailed payment and accounting data

Business Intelligence

- Trending & Analytics
- Reporting
- Dashboards
- Predictive Modeling
- Optimization

All agencies can access PIR to view payment related data and perform analytics.

PIR Data Repository Phases

Phase I = Electronic
payment voucher data
(5515/215)

Phase II = NTDO
TAS/BETC Data

Phase III = FMS issued
payment data

Data Timeline

Date	Milestone
June - September 2012	NTDOs can enroll and will receive their tokens for gaining access to the PIR.
July 2012	Payment vouchers, currently accessed via CA\$HLINK II, will be available for viewing in the PIR.
October 2012	Payment vouchers dated October 1, 2012 and beyond will no longer flow to CA\$HLINK II. Going forward they will only be available for viewing in the PIR. Historical vouchers pre October 2012 will still be visible in CA\$HLINK II.
December 2012	Agencies currently accessing CA\$HLINK II should be enrolled in PIR. PIR will report all summary voucher payment related data to GWA/CARS.
January 2013	NTDO agencies may begin transmitting check, wire, ACH and ITS.gov payment data and detailed TAS/BETC classifications via the PIR SRF.

Who will use PIR?

- Non Treasury Disbursing Offices (NTDO) to access their voucher data previously accessed in CA\$HLINK II and detailed payment transactions when they become a CARS Reporter
- Treasury Disbursing Offices (TDO) to access detailed payment data analytics

Phase I: Data within PIR

- Payment vouchers (5515) – summarizing disbursement transactions currently housed in CA\$HLINK II. Account types (Programs) included but are not limited to:
 - FRB ACH
 - FRB Fedwire
 - FRB ITS

Data Delineation

- Delineation of data was made by business line with the following exceptions:
 - The following payment related vouchers will be available in TRS:
 - Stored Value Cards
 - FRB EZPay
 - FRB Eagle Cash
 - FRB International Treasury Services (ITS) handles both payments and collections:
 - Payment transactions will be forwarded to PIR
 - Collection transactions will be forwarded to the Credit Gateway and reported by that program to TRS

Historical data within PIR

- Payment (5515 & 215) and miscellaneous vouchers (debit and credit) will be available as far back as June 1, 2005
 - Since miscellaneous vouchers contain a mixture of payment and collection activities, these vouchers will reside and be available for viewing in both PIR and TRS.
