Training

Overview:

The training material is available on the TRS.

Training Program:

Click on the link below to access the TRS Training program.

[TRS Training Program](#)

The TRS training program requires the use of Adobe Flash Player version 10 or higher. Most computers will already have the Flash Player installed. Click on the image below to install the Flash Player if needed.

Note:

TRS provides the link to download and install Adobe Flash Player. If you have difficulty installing Flash Player, please consult your System Administrator or LAN Administrator for assistance.

Reference Manuals:

Click on a link below to view the manual.
